ABSTRACT

Based on data collected annually by the American Association of Junior Colleges (AAJC), this directory provides information on 704 non-profit, public, and private two-year colleges in the United States and its territories, including statistics on 1961-62 enrollments and personnel. Following material on the scope and compilation of the directory, abbreviation and key terms are explained. Next, the directory lists the colleges alphabetically by state, including the following information for each: location; administrative head; AAJC membership; state recognition or accrediting agency; co-educational or single-sex status; year organized as a junior college; type of control or affiliation; October 1961 enrollment of full- and part-time, male and female, freshman, sophomore, and unclassified students; October 1961, summer 1961, and October 1962 total enrollments; and full-time equivalent instructional and administrative faculty in 1961-62. Following a list of changes in institutions since the previous year, statewide enrollment summaries are provided for all institutions and for public and independent private colleges. Next, tables show distribution of size of enrollment, independent and church-related colleges by type of control or affiliation, and accredited schools by state. Information on other members of the AAJC and junior college organizations is presented in the final sections. (AYC)

INTRODUCTION

The annual *Junior College Directory*, published this year for the thirty-fifth time by the American Association of Junior Colleges, has proved to be a valuable source of information about two-year colleges for both educators and the general public.

Information in this year's edition covers the period June 1961 through May 1962, plus October 1962 data for total enrollments. Heavy reliance necessarily has been placed on the accuracy of the reporting institutions.

Current data on accreditation, control, type of institution, student enrollment, and administrative and instructional faculty are given for each junior college in the United States and its territories that responded to the questionnaire sent by the Association. Summary tables provide information, by state, on (1) all junior colleges, (2) public junior colleges, and (3) private junior colleges. Additional tables show the distribution of size of enrollment in junior colleges, the number of independent and church-related junior colleges by type of affiliation or control, and the number of junior colleges accredited by regional accrediting associations in the different states.

An alphabetical listing of junior colleges is included as an aid to locating the various institutions by states. Membership in the Association not included in the main table is listed, and a roster of state, regional, and national junior college organizations and their principal officers is provided.

An indication of the growth of junior colleges can be gleaned from the list of changes in institutions since the 1962 Directory. Thirty-four junior colleges operating as of the date of publication are listed for the first time this year, and 10 more junior colleges are slated for opening later in the year. The list also shows the number of junior colleges that have become four-year institutions since 1962.

More extensive and detailed information about junior colleges may be found in the Fifth Edition of *American Junior Colleges* (1960), edited by Edmund J. Gleazer, Jr., and published by the American Council on Education, 1785 Massachusetts Avenue, N.W., Washington 6, D.C. The Sixth Edition of *American Junior Colleges* will be published in the fall of 1963.

DEFINITIONS OF TERMS

Enrollment

Full-time—Students carrying at least three-fourths (12 or more semester hours) of normal full-time load.

Part-time—Students enrolled in at least one course for credit and carrying less than three-fourths (less than 12 semester hours) of normal full-time load.

Freshmen—Students who have completed less than 28 semester hours of college credit at time of registration.

Sophomores—Students who have completed 28 or more semester hours of credit at time of registration.

Unclassified—Students not counted in any other category who may not have fulfilled the requirements for matriculation or who are enrolled in *college-level* courses for which they receive no credit.

Faculty and Administration

Administrative—Includes all professional staff *not* counted in instructional staff.

Full-time equivalent—Computed by determining the number of full-time faculty to which the part-time faculty is equivalent, and then adding the resulting figure to the number of full-time faculty.
